Mr. and Mrs. J. Naimith entertained about eighteen guests including the returned veterans at a whist party on Monday evening last. Mr. H. Musgrove won the first prize and Miss J. Horne won the booby prize.

Spring is come, bright, sunny, muddy spring. The husband with the broomhandle can be seen pounding the dusty carpet and swearing at his hard luck, the stove pipe still wears its familiar ironical smile. Oh, Spring.

Remember the Sunday School Convention at Oyen, Tuesday and Wednesday, April 1-2.

Born—To Mr. and Mrs. Wm. Coe, New Bridget, at the Oyen hospital March 25, a daughter.

A town never loses anything by extending a royal welcome to strangers who appear in its midst. Hospitality is a priceless gem but it costs very little.

Mrs. Ughland will hold a Millinery Opening of the very latest styles, on April 4th and 5th, at Freeland's Store.

A dance will be held in Green Mound hall, Tuesday, April 4th, to welcome back Jack Scarf, who has just returned from France. A good time assured.

Oyen Lady Curriers Meet Their "Waterloo"

Two rinks from the Youngstown ladies curling club played against the Oyen curlers yesterday afternoon and showed little form winning both games.

Cates Rink Wins Crockett Cup

The final game for the Crockett cup was off last Friday night between Cates and Woods which was won by the former. This cup was donated to the club by our local jeweller, J. W. Crockett to be played for in a competition where each rink plays one game with every other rink in the club the one having the highest per centage of games won become the possessor of the cup for the season. The following was a personnel of the rinks in the final game: R. Smith, A. Fry, W. V. Miller and R. Cates skip. J. Love, E. Kenny, Don May and T. Woods skip.

DEATH OF MRS. ARTHUR MUNSON

It is with regret that we have to announce the death of Mrs. Arthur Munson, which occurred at her home in Coronation, Alta. on Monday morning, March 17. Mrs. Munson was sick only eight days with the Spanish influenza. The funeral took place last Thursday at the coronation cemetery.

Both Mr. and Mrs. Munson are well known in Oyen, and the sympathy of the entire community is extended to Mr. Munson in his sad bereavement.

PIERROT SHOW ORGANIZED

Several of the Oyen singers got together last Wednesday evening for the purpose of organizing a pierrrot show, which will be staged at Oyen in the near future. The following are the committees: Managing committee: J. J. Kelly, Chas. Dalton, W. V. Miller, C. A. Gilders and A. A. Fry, secretary; musical committee: H. Hancock, Mr. Moolie and E. D. Thygeson.

Farmer Found Dead In Shack.

Carl Upjohn, a farmer residing in the Cappon district, was found dead in his shack by a neighbour, on Monday morning last. It appears that Chris. Damgaard one of the neighbours of the deceased had occasion to make a call at Upjohn's place and on knocking at the door received no response, walked in, and found Upjohn lying across the bed dead.

Oyen Still Holds Beaver Cup.

The last game of the season caused just as much enthusiasm as at any other time of the season when a large crowd of spectators witnessed the return game with Youngstown for the Beaver Cup.

Cates' rink played Lamb's rink. The visitors started off in fine form and seemed about to carry all before them, but as the game went on the home team made the scores and won by 15-6.

One of the best games of the season was played by Barber's rink against Harper. All through the game there was some excellent play on both sides and everyone was loud in their praise of both sides for their fine exhibition. Although the Oyen rink lead from the start, some splendid shots were made by the visiting team.

Youngstown rinks—Messrs. Hart, Gilchrist, Parsons, and Laub, skip. Messrs. Price, Barker, Hensley, and Harper, skip.

Oyen rinks—H. Gillogie, G. Dunlop, C. Dalton, and R. Cates, skip. J. Naimith, H. T. Lamont, W. Lamont and E. P. Barbour, skip.

After the game the lady and gentleman visitors were given a real reception in the Saginaw Hall. So the Oyen rink, under the leadership of their skip, won the Beaver Cup.

Lloyd George Faces Critical Situation

Paris. — La Homme Libre, discussing the appeal of President Wilson, Premier Clemenceau and Premier Orlando to Premier Lloyd George, that he remains in Paris, the chief questions connected with peace should be settled, emphasizes that the critical situation in Great Britain arising from labor trouble which the British premier is facing, is sufficient to explain his impatience to return to London. The newspaper adds that Lloyd George is confronted to a greater extent than any other government head with the duty of establishing peace and serving the interests of the working classes.

"On the morrow of the great European conflict and the birth of a new era, which imperatively demand close national unity," L'Homme Libre says, "Great Britain is in the throes of internal dissensions. Mr. Lloyd George is as anxious to conclude peace rapidly but he is to preserve concord among the people of Great Britain. Both of these aims are inseparably linked."

Would Like Blockade Raised

Is of No Value to British Government

London. — In the house of commons Sir Frederick Bantock, a member of the opposition, warned the government that a continuance of the present financial methods must, eventually, national bankruptcy. Other speakers complained that control of exports permitted the United States to step in and capture the British market.

J. Austen Chamberlain, chancellor of the exchequer, replying to criticism, said that the government was trying to absolutely cut "as rapidly as was safe. The export of cotton goods was free to every part of the world, except the blockade countries, he declared, and in this case restrictions were maintained for reasons of later-allowed policy. The house, he believed, would hardly find it impossible for acting in opposition to Great Britain's allies.

Mr. Chamberlain said he was advised that it was not a fact that Americans were sending goods where British goods were not admitted. What the United States had done was to look orders and give long credits for goods to be delivered when the blockade was raised. It was up to British manufacturers to do the same.

The sooner the blockade could be raised, he said, the better the government would be pleased, and it would gratify the general if Germany could draw the raw supply through neutral countries.

Visitors to Germany Require Permit Berlin. — Because of the great number of military and civil entente missions which have visited Germany since November, the German cabinet has decided, according to the Kreuz Zeitung, that no persons from an allied country will henceforth be permitted to travel in Germany without special permission from the armistice commission.

More Rum for Britain Kingston, Jamaica. — The legislative council is considering an income tax bill which would impose a tax on all insurance and shipping companies doing business with Jamaica. As a result of the withdrawal of embargo restrictions, arrangements are being made to ship \$2,000,000 worth of rum to the United Kingdom.

Force Along Rhine Must Be Retained

London. — During debate in committee of the house of commons on the military service bill, Winston Spencer Churchill, opposing the amendments limiting the operation of the bill to December 31, 1919, instead of April 30, 1920, emphasized the fact that the British regular army had virtually disappeared and that it was necessary to keep men whom the bill retained with the colors for overseas service.

Mr. Churchill said he had every hope, however, that the British force establishment would be on a voluntary basis before the end of the year.

The army of occupation, he added, was on a different plane and could not depend on voluntary recruiting. It was impossible, he said, to assert how long it would be necessary to have a British army on the Rhine in

Ships Sail for Food

London. — Eight German steamers, including the Kaiser, in August Victoria, Cleveland, Graf Waldersee and Pretoria, sailed from Hamburg for food supplies, according to advices from Berlin. It is said that the crews of the ships made a formal demand that they should not be removed from the vessels during the trip.

Prefer to Become Outlaws

Hun President Says Unjust Peace Cannot Be Signed

Berlin. — "Germany is prepared to sign but it is not prepared to commit herself," the Faltstagen figure of Fritz Ebert, president of the new German republic, straightened in the chair and with a somber voice he continued: "If the peace terms mean suicide they will not be signed. Rather than political and economical death Germany will choose political and economical madness. If the entente offers us instead of a peace based on Mr. Wilson's fourteen points only a knife with which to commit suicide, we will not sign it. But we, Germany, will become an outlaw nation."

Appeals Against Sentence

Paris. — An appeal has been entered against the death sentence passed on Emil Cotte, the assassin of Premier Clemenceau.

Polish Situation Pitiful

Lemberg Defended by Women, Children and Boy Scouts

Chicago. — In a letter received by John S. Smol, president of the National Polish department, Madame Paderewski, wife of the pianist and premier of Poland, described conditions in Poland as "pitiful" and said the Polish army was hungry and without clothes in zero weather, and lacked arms. The letter was dated January 28.

The city of Lemberg was without light, water, food, arms or ammunition, but was constantly bombarded, Mrs. Paderewski wrote. "It is defended by women, children and boy scouts," she added, and declared, "our enemies commit the most horrible atrocities."

"Some of the women taken prisoners were impaled on pickets," she wrote. "So were also six men who were then removed and buried in a heap and left to die slowly. Boy scouts were taken and tied together, three or four at a time, with barbed wire and then buried alive."

Continuing, the premier's wife asserted the Bolsheviks were burning, beheading or freezing Poles to death along the border; in Cieszyn the Czechs were killing and hanging, and "the German army is advancing on Posen. We are in a trap. I must hold my heart with both hands for fear it will burst with pain," the letter concluded.

Invite British Fleet

Washington. — Navy department officials state that Secretary Daniels during his trip abroad probably would invite the British fleet to New York for a visit during the coming summer.

Such an invitation was extended informally to Assistant Secretary Roosevelt when he was in England just before the signing of the armistice.

German Parties Disagree

Independents Make Demand for Relaxation of Government Rule

Berlin. — That the majority and independent socialist parties are irreconcilably split, is the common expression in political circles resulting from a speech by Wolfgang Heine, the Prussian diet, made in reply to the demand of the independents for a repeal of martial law in Berlin. Following closely upon Minister of Defense Noske's censure of the action of Hugo Haase, the independent leader, in which he reviewed the intimate co-operation existing between the independent and the Spartacists from the first day of the revolution.

Heine told the independents that they were more concerned about Russia than about the waters of Germany and said that it was not the Russian steam roller that brought about Germany's defeat, but Bolshevik infection and corruption paid with stolen Russian funds.

Heine also held the independents responsible for the Spartacist activities of the fugitive police head, Eichhorn, and for the lawlessness of George Lebedow's marines, and charged that they precipitated the recent general strike without the slightest justification.

U.S. Senator Asked to Resign

Jefferson City, Mo. — James A. Reed, United States senator from Missouri was called upon to resign his seat in the senate in resolutions adopted here by a conference of fifty of the sixty-seven democratic members of the house.

The action was taken, conference leaders announced, as a result of Senator Reed's address to the legislature in which he attacked the proposed league of nations.

GET AFTER THOSE DOLLARS

Our town should get all of the trade in our trade area. We can't worry about our neighboring town's business. We have enough to do to take care of our own. But we should get all of our own. How about those dollars that are getting away from us? How about the dollars that are slipping through our fingers? We have the goods. We have the values. Our prices are right. And yet there is a lot of money slipping away from us constantly. The best way to get after this money is to tell the truth about the man or the system that is taking it away. Join the Trade-at-Home campaign.

Officials Incompetent

Soldiers at Rhyl Camp Not Blamed

Halifax. — Lieut-Col. Pratt, O.C. the 133rd battalion and member of the Ontario legislature for Norfolk County, who returned to Canada on the Celtic in an express published in the Daily Echo, attributes the unrest of Canadian soldiers in Rhyl camp to the incompetency and unpreparedness of the department of militia, which, judging by results at the time the armistice was signed he said, was absolutely without any plan for the repatriation of Canadian soldiers.

"Argyll House is full of incompetent and dabs," said Lieut-Col. Pratt. "There are many officers there who have wrangled their way through the war praying to God that they would last another year so that they would be able to hang on to their jobs."

"I have spoken to 102 officers on board the Celtic and every one of

them has told me that they do not blame the soldiers at Rhyl camp for the action they had taken."

Must Suspend Hostilities

Paris. — Marshal Poincaré and other generals were called in during a prolonged session of the supreme council to give their advice as to action which should be taken in Galicia, where Ukrainian forces are besieging Lemberg, which is threatened from three sides. It was decided that a suspension of hostilities should be sent to both sides asking for a suspension of hostilities. The warning will take the form of an injunction to the two armies.

Restrict Liquor in West Africa

London. — The government has prohibited the importation of all spirits into the British West African colonies, except under license, which will not be granted for the importation of so-called "trade spirits." It was announced. This decision was taken as a preliminary measure, pending decision on the question of the permanent prohibition of the spirit trade in West Africa.

Japanese Would Assert Their Rights

Offered Baltic Crown

Washington. — Arrival of a British squadron at Libau with a British commission having military and political power to open relations with the Lithuanian government was announced in official dispatches quoting the Lithuanian press bureau. Prince Adolf Friedrich of Mecklenburg, is reported to have been offered the Baltic royal crown.

Denies Ex-Kaiser

Von Hindenburg Makes Excuses for Flight Into Holland

Berlin. — Aroused by recent criticisms of former Emperor William regarding his flight from Germany to Holland last fall, Field Marshal von Hindenburg has prepared and published here a defence of the ex-ruler's action.

After depicting the situation as it existed in November, caused by the weakening of the army, the doubtful reliability of the forces in the field, and the breaking out of the revolution at home, the field marshal writes: "The peaceful return home of the emperor then became impossible. It could only have been carried out through the forcible employment of loyal troops and civil war would have been added to the hostilities with the enemy."

"The emperor, could have betaken himself to the fishing banks of Holland or to meet death at their head in a last attack on the enemy, but the armistice so recently desired by the people would thereby have been postponed and the lives of many soldiers unnecessarily sacrificed. The emperor, finally, in agreement with his advisors, and after a severe mental struggle, decided to leave the country, solely in the hope that he could thereby best serve his country, save Germany from further losses, distress and misery, and restore peace and order to Germany."

Mounted Police at Swift Current

Swift Current, Sask. — A detachment of mounted police is to be headquarters for a division of the reorganized Royal North West Mounted Police force. The detachment will be in charge of Staff-Sergeant Baxter, officer well and favorably known in this section, where he had served with the Mounties for several years previous to going overseas. Sergt. Baxter is at present in the city, awaiting instructions, having just arrived from France. The strength of the force to be stationed here has not yet been given.

Britain Will Construct Giant Airplane

London. — Following successful trials of new British bombers, the right type of construction the government, according to the Mail, has ordered building of two enormous ships. Each will be 800 feet in length, and will have a capacity of 10,000 cubic feet. They will be driven by six engines which will generate a total of 1,800 horse power, and, it is said, will have a lifting power of 80 tons, compared with 29 tons, the largest load carried by any known to be in existence.

World Plans to Prevent Future Wars

Depopulated Reims

Paris. — The population of Reims, which was 127,128 before the war, is now, according to a census just completed by the government, 51,000. This number 3587 are men, 3,255 are women and 1,918 children. Five hundred children attend school in the ruined city.

Altenly in Paris

Paris. — Gen. F. H. Allenby, commander of the British forces in Palestine, has arrived here from Egypt to advise the supreme council on near eastern questions.

Paris. — A Japanese amendment to the covenant of the league of nations providing that the contracting parties shall agree to grant "equal and just treatment" to all aliens within their borders who are nationals of states that are members of the league, will be submitted to the supreme council, it is learned by Reuters from Japanese sources.

The standpoint of the Japanese is that all citizens of nations deemed sufficiently advanced to become members of the league should have equal rights when travelling or living in foreign countries, it is said.

The Dominion delegates heartily concur in the view of the British delegation that the question of the equality of treatment of all nationalities throughout the world, is not a matter for the league of nations.

A prominent Australian expressed the opinion that the commonwealth was not prejudiced against the Japanese, but had a great admiration for them. Nevertheless, Australia believed that it would be better for the future of the world if each race should develop along its own distinctive lines.

The chief consideration was the industrial one. Australia aimed at building up in the most rapid manner a British population of over 15,000,000.

Australian chief attractions was its high wages and pleasant industrial conditions. The Asiatic worker, as a Canadian delegate stated, was a worker, therefore, if they opened the doors to Asiatic immigration, they automatically closed it to Europeans.

A Canadian delegate stated the question of immigration must be decided individually by each country. Canadian interests had no complaint regarding Japanese in Canada. Their immigration was limited and only a few hundred were admitted yearly.

Famous Battalion Disbanded

Men of Princess Patricia's Have Received Discharge

Ottawa. — The famous Princess Patricia's Canadian Light Infantry, Canadian expeditionary force, has been disbanded. Demobilization has been completed, the last men being discharged on the 28th inst. The force had been disbanded the demobilization constitutes a record for speed.

There was a touching scene as Lieut. Col. A. Hamilton Gault, organizer of the unit, bade the men farewell.

Many of the men have left for their homes, those living at a distance being provided with first class passage and accommodation, in addition to generous allowance for meals en route. Toronto and western men were among those who have left.

OUR CHURCHES

That churches in any community exercise a most potent influence for good, is conceded by all except the most rabid or the most infidel whose egotism and self-conceit blind his mind to the inestimable value of Christianity. But to what extent are the churches valuable to this community? The Gallian teacher said of his disciples: "Ye are the light of the world." "Ye are the salt of the earth." Hence, if all His disciples are the light of the world and the salt of the earth, the logical as well as the scriptural conclusion is that they are the light of the community which they live. These declarations, however, do not preclude the possibility of the light going out—being hid under a bushel—or the salt losing its saltiness. But certainly no reasonable or unimpaired person would accuse the churches of being wholly composed of united band of hypocrites. For it matters not to what extent sin, in its many forms, may prevail in the ranks of any church, you will find, within its membership, consecrated men and women. And it should be borne in mind that it only requires a few of the above-mentioned class to become a light of the community.

There is not a man in our town, however indifferent to the claims of Christianity, who would want to rear his family here if there were no churches or church influence, for he at once recognizes them as the guardians of the morals of the community. Without the blessing of the churches, the condition of this community at the end of the next ten years if from this time until then the churches were closed? To what extent would life and property be safe?

And yet, with all the organizations of the community, the devil too frequently holds high carnival. What might we expect if wholly divested of these good influences?

The high moral standing of the community is due to the fact that it has been permeated by Christian influence and education, such as have radiated from the various church organizations.

EDITOR GLAD TO MAKE RATE UNDER OLD CONDITIONS

One man who called in a country newspaper office recently was firm in his idea the editor was in the profiteering class because the price of the paper had been raised to \$1.50 a year.

In looking up his subscription account it was found that when the price was \$1 he had paid his subscription with eggs one year and the editor was glad to offer him the paper for \$1 again, provided he bought the same amount of eggs. In this case it was nine dozen. But he refused and preferred to pay the \$1.50.

In looking over the books of the "good old days," it was found another man had presented a case of honey for two years' credit; another a dressed turkey, in lieu of the dollar.

Anyone who made such exchanges in the past, says the editor, is more than willing to duplicate the offer on the same basis.

WALLIS

America's Foremost Tractor.

In every new industry, one manufacturer eventually becomes the leader. In the tractor field, the Wallis has become "America's Foremost Tractor."

The Wallis weighs 1,000 to 5,000 pounds less than tractors designed to do the same work. It has completely enclosed gears, including the final drive. It has a motor comparable in quality of material and workmanship, with the highest type acrylonitrile engine—it keeps cool. The Wallis has high-grade, strong steel in place of coarse heavy cast iron. It has gears drop forged, cut and hardened. It has Hyatt Bearings throughout.

These features add years to the life of a tractor. They make breakdowns and delays almost unknown. They enable you to do 30 to 50 per cent more plowing per gallon of fuel than with the ordinary tractor.

In short, the Wallis is America's Foremost Tractor, because of its "thorowed" appearance, because it plows an acre of ground at less cost than any other; and because, at any kind of farm work it affords true economy.

Investigate the Wallis. Write us for the latest Wallis catalogue.

The Canadian Fairbanks Morse intend giving a demonstration in the district in the near future. The time and place will be advertised later. We also expect to have one of their tractors in stock by the 1st April.

Honest? Of course! Everything's honest in Love and War. Well, the Jug became Full instead of Empty. And where did the Gleam lead the Lady? You'd never guess! Straight across the Continent! She started in Boston and glommed all the way to California on that Jug full of Pennies. Honest, she did!

HINTS TO AUTOMOBILE OWNERS

We have made arrangements to devote a certain amount of space each week to give hints as to how to take care of an automobile. The following hints will be of considerable help to those who have cars.

Know what each pedal of an automobile is for—know what each button will do—do not be sure about it—and do not lose your head. Then you will not get into any trouble.

Early morning is the best time to learn the first stages of driving. Go slowly and keep to the right. Get in the habit of watching for vehicles, both on the street you are driving on and on the cross-street. After a short period, when you feel satisfied you have mastered the elementary things, drive later in the day when traffic is heavier. Be careful. This will accustom you to the crowds. During the learning period drive slowly. Do not speed. Most of the trouble comes from driving too fast.

Find out about your car and treat it with consideration. Watch for lubrication. You do not go without your food for several days, nor should you allow your car to be without sufficient oil and water. Both are necessary for proper performance.

INTERNAL SHORT

When one of the cells shows a loss of specific gravity in its electrolyte of fifty or seventy-five points and no lead can be discovered, an internal short circuit is indicated and should be repaired at once. Whenever the specific gravity of one cell falls more than twenty points below that of the other cells, there is trouble somewhere and it should be run down without delay, even if it is necessary to call in the service station.

BATTERY BOX PAINT

Black asphaltum paint is an excel-

lent medium, to use on the battery box, as it prevents the eating away of the box by solution that may be spilled. This box should be given a heavy coat of this paint several times a year. Incidentally washing soda or ammonia solution will neutralize the effect of battery acid while it is still wet.

CLUTCH GRABBING

This trouble is the opposite of slipping. The clutch takes hold too suddenly, so that the car is jerked in starting and needless strain is placed on the entire power transmitting mechanism. Grabbing is caused by too heavy spring pressure, by factors that have become rough and dry, by bad play in the crankshaft, by misalignment of the clutch shaft, by too tight an adjustment. The driver who jams in his clutch is quite likely to produce a grabbing action.

SOFT WATER

Soft water is very much preferable to hard for filling the cooling system. In cases where such an arrangement is possible it is an excellent stunt to place a rain reservoir on the roof of the garage. Rain water is soft and makes an excellent cooling liquid, but after it is drawn from the tank it should be filtered before being placed in the radiator.

EXCEL

Miss Emily Pitman returned to Calgary on Sunday after nursing her sister Mrs. A. E. Collinge through influenza.

A very successful evening was spent at the U. F. A. social and dance last Friday evening. It seemed very hard to break up the dance as the crowd were unwilling to let the orchestra stop playing. Friday the 4th of April will be the last dance of the season at Excel. This dance will be under the auspices of the U. F. A., and the same orchestra will supply the music. Gentlemen \$1.00, super extra.

Mr. and Mrs. Abbott entertained a number of friends at their home on Monday evening. All report a most enjoyable time.

We were glad to see so many Oyentians at the social on Friday evening.

You'll make no mistake in investigating Miller's values in Men's Work boots.

H.C. Catch of Fish Sets Record
—The Report, H.C.—The February fishing business represented the largest catch for that month of any year since the industry began to be reported. The total catch for the month amounted to \$24,000 pounds as compared with the same month of the previous year, according to the report of the Prince Rupert Fishery Commission, established a new record.

The brand of popularity that one can buy isn't worth the price, and some local treatment for this condition should be taken. We know alternative extract which has been on the market for a great many years, and which has been highly recommended by thousands of users, is Dr. Pierce's Golden Mucil Discovery. This tonic compound is composed of extract of roots and herbs without alcohol, and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnation or poisoned blood.

of the Dominion government which money will be loaned on houses erected during the year, city has asked the Manitoba association of architects to co-operate with them in this matter so that these houses can be built along the modern lines and improvements the architects of the city are at present working out designs for small houses, to be submitted to a housing committee of the city council, who are to be commended for their action in asking the Manitoba architects' association to co-operate with them on such an important matter. Both the imperial government and the American government have followed along the same lines.
